.....

We are committed to providing unparalleled pet care in two state of the art facilities. We are home to one of the largest teams of outstanding veterinarians, licensed veterinary nurses and support staff in the Grand Rapids metro area.

**EXCEPTIONAL MEDICINE...
COMPASSIONATE CARE**

A COMMITMENT TO EXCELLENCE

Cascade Hospital for Animals and Breton Village Animal Clinic are committed to providing exceptional veterinary medicine and compassionate care that helps to strengthen the human-pet bond.

SURGERY

We provide soft tissue and orthopedic surgery and use comprehensive anesthetic monitoring.

REHABILITATION AND FITNESS

From laser therapy to an underwater treadmill, our rehabilitation facility and dedicated staff have the tools to soothe aches and pains and get animals moving again.

OUR STORY

Cascade Hospital for Animals has been serving the community since 1955. As the Cascade area has grown over the years, so have we, from a small farmhouse clinic to a large, multi service hospital with a satellite clinic in the Breton Village area. We love being able to provide exceptional medicine and service for the pets and people of the Grand Rapids area!

DENTAL

A healthy mouth is critical to general health, longevity and comfort. We offer cleanings, radiographs, and treatment of diseased teeth.

GROOMING

Our team of experienced groomers will ensure that your pet is relaxed and comfortable while receiving exactly the look you want.

ADVANCED DIAGNOSTICS

We use advanced imaging technology such as ultrasound and digital x-rays to provide accurate diagnoses.

DAYCARE

Our doggie daycare, The Crate Escape, keeps pets entertained all day long.

ACUPUNCTURE

Acupuncture can provide relief for issues such as pain, nausea, and allergies.

Cascade Hospital for Animals is an AAHA-accredited hospital.
